Making the recovery from COVID-19 circular and green - Council conclusions

The Council approved conclusions on making the recovery from COVID-19 circular and green as a response to the European Commission's new Circular Economy Action Plan. The conclusions aim at providing comprehensive political guidance on the broad range of actions foreseen in the Action Plan. They aim to strike a balance between an ambitious approach and the need to consider a broad range of issues when implementing the various actions, including the different starting points of Member States.

Digitalisation for the benefit of the environment - Council Conclusions

The Council approved conclusions addressing the twin societal challenge of digital transformation and green transition, and exploring ways to contribute to building the necessary bridges between them.

The conclusions give political guidance to the Commission with a view to presenting appropriate initiatives to exploit the opportunities offered by digitalisation for environmental protection and climate action, and to limit the negative environmental impacts of digitalisation.
